

# SUBMARINES IN COLLISION

Nineteen Americans Lost  
When Undersea Boats Come  
Together in Home Waters.

WASHINGTON, Dec. 19.—Nineteen lives were lost when the American submarine F-1 was rammed and sunk by submarine F-3 in home waters during a fog Monday afternoon.

The F-3 was undamaged and picked up five survivors of her victim. Secretary Daniels announced the disaster late yesterday in a brief statement which gave no further details.

Lieutenant A. E. Montgomery, commanding officer of the F-1, was among the five saved. His mother, Mrs. Julia Montgomery Pratt, lives at Fort H. G. Wright, New York.

No hope is entertained for the missing men. The F-1 was one of the old-type submarines. A sister boat submerged in Honolulu harbor three years ago and failed to operate. Before she could be raised the entire crew of officers and men, numbering more than a score, was suffocated. At the time submarines of this class were found to be generally faulty in construction.

How Monday's accident occurred the navy department has not yet officially ascertained. Under the rules of censorship the location of the accident and other details were withheld. It is assumed that the boats were engaged in a practice cruise.

# SIDOWAY IS OPPOSING PLAN

Utah Fish and Game Commissioner Not of Same Mind as U. S. in Plan to Remove Limits.

SALT LAKE, Dec. 19.—The state of Utah, through its fish and game commissioner, Robert H. Sidoway, will go on record with the biological survey of the United States as being decidedly opposed to the removal of the bag limit on game and the suspension of the closed season on fish and game during the period of the war.

In an effort to sound out the situation throughout the country E. W. Nelson of Washington, D. C., head of the biological survey of the United States, asked Commissioner Sidoway of Utah for his opinion regarding the proposed move.

The communication from Washington did not state the origin of the suggestion, but thus far the proposal has met with almost a complete turnaround from every state in the country.

"I am absolutely opposed to any move at this time which will suspend the closed season on game fish, game birds and game animals, and I am also opposed to the removal of the bag limit," said Commissioner Sidoway last night.

"In my opposition, I believe, I am voicing the sentiment of every true sportsman in Utah.

"Such action would, in my mind, destroy the work of years. It would open the markets to market hunters and fishermen without restriction and there is a serious doubt in my mind if any great good would come from such a move.

"If the time comes during the war when the food supply of the country reaches such a low ebb that it would become necessary for the people to fall back on the fish and bird life for sustenance, then a different phase would be placed upon the situation and a different opinion rendered.

"Under the present existing circumstances it would be folly to tear down the system which has been built up by the expenditure of years of experience and unlimited money."

## Wouldn't you like to have these Metropolitan Stars as your Christmas Guests?

Wouldn't it be a pleasure to be able to sit down amidst the comfortable surroundings of your own home and listen to Anna Case, Marie Rappold, Margaret Matzenauer, Arthur Middleton, Thomas Chalmers, and the other great singers of the world? You can sit in your own home and revel in the beauty of their magnificent voices, on

## The NEW EDISON

"The Phonograph with a Soul"

### A ROYAL GIFT It Means a Richer Life

As a Christmas gift what can surpass this wonderful instrument? It is like a permanent pass to all the operas, all the concerts, all the music of the whole world. It does actually add something real and vital to life.

Have you ever considered the New Edison as a family gift? Nowadays many families are eliminating the smaller individual presents to one another and are pooling their holiday funds for the acquisition of "the phonograph with a soul," the instrument of music's Re-Creation.

#### EXTRACT FROM NEW YORK TRIBUNE

##### EDISON SNARES SOUL OF MUSIC

"Startlingly novel even in this age of mechanical marvels was the concert that drew 2500 persons to Carnegie Hall yesterday afternoon. \* \* \* Then Madame Rappold stepped forward, and leaning one arm affectionately on the phonograph, began to sing an air from 'Tosca.' The phonograph began to sing 'Vissi d'Arte' at the top of its mechanical lungs, with exactly the same accent and intonation. \* \* \* 'Occasionally the singer would stop and the

phonograph carried on the air alone. The fascination for the audience lay in guessing whether Madame Rappold or the phonograph was at work, or whether they were singing together.

"The secret of the new phonograph lies in the fact that Edison has been able to reproduce the over-tones in musical sounds. These over-tones, of which the domestic phonographs have so long been deprived, are apparently the intangible essence of music."—New York Tribune, April 23, 1916.

We can furnish one hundred more of similar testimonials by leading critics of America.

Do not be deceived by cheap imitations who claim wonderful cabinets and tone. Thomas A. Edison has spent twenty-seven years in perfecting this wonderful instrument and HE is the DADDY of them all.

Let us demonstrate these facts before you buy a talking machine. You owe this to yourself. We ask nothing more.

## MEN OF GERMAN BIRTH ARE LOYAL

NEW YORK, Dec. 19.—An appeal to American citizens of German birth and descent to join its campaign for helping the United States to win the war was made public by the executive committee of the Friends to German Democracy. Franz Sigel, son of General Franz Sigel of Civil War fame, is president of the organization.

"This war is not a war on the part of America against the German nation," the appeal stated. "It is rather a war against a peculiar system of society and government. This system of society and government unhappily

dominates the German people to their own and the world's undoing."
